BOOZE OR MEDICINE?

Which will you have? If a woman suffering from one of the delicate ailments peculiar to your sex it will be well for you to know that Dr. Pierce's Favorite Prescription is the only remedy advertised for such maladies which is absolutely free from intoxicating liquors and all other harmful agents. The good you feel from its use is not the delusive exhileration from a tippling beverage, from which the system reacts into a worse condition than before. It may be a little slower in manifesting its bracing and invigorating action, but its benefits are none the less positive and, best of all, they are *lasting*. It's an honest medicine—not a beverage.

"I have been taking your medicine for the last three weeks and can say I am gaining strength," writes Mrs. Seneth Kinny, of 605 East Madison Street, Mount Pleasant, Iowa. "I have been having very poor health all winter. I doctored with our family doctor but was relieved only while taking the medicine. I took Dr. Pierce's medicine several years ago. I knew it was good for any one suffering with female trouble. Have taken only one bottle and am gaining strength very fast. I could not eat nor sleep when I began taking the 'Favorite Prescription.' Heart troubled me and I had cold and numb spells till my heart would almost stop beating. Have had one child since first taking your medicine. If I continue with your treatment am positive I will be cured."

Every suffering woman in this land should write to Dr. Pierce and learn how certainly he can help her to health and strength. It costs nothing to write and receive entirely free the advice of one of the most experienced physicians in this country. His great thousand-page book the Common Sense Medical Adviser, in stiff paper covers, will be sent free for 21 one-cent stamps the bare cost of mailing; or, send 31 stamps for cloth bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

Pierce's Pleasant Pellets These ORIGINAL Little Liver Pills, first put up by old Dr. R. V. Pierce over 40 years ago, have been much imitated but never equaled. They're made of purely vegetable, concentrated and refined medicinal principles, extracted from native American roots and plants. They speedily relieve and cure foul, torpid and deranged Stomachs, Livers and Bowels and their attendant distressful ailments. One or two a laxative, three or four a cathartic.

Don't allow the dealer to insult your intelligence by offering his own remedy to you instead of this well-known preparation of Dr. Pierce.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Law Declared Constitutional.

Berea College, in Madison county, Ky., was yesterday fined $1,000 in the State Circuit Court for violation of the Day act. This is the law passed by the General Assembly of Kentucky at its last session prohibiting the coeducation of the white and colored races. While the law is general in form it was aimed directly at Berea College, which has for 50 years conducted a school and college for the education of all youth of good moral character. When the law was passed the college authorities at once declared their intention to abide by its provisions pending a decision as to its constitutionality. In order to raise the question a technical violation of the act was committed, and on such violation by consent the college, as a corporation, was indicted. The college demurred to the indictment and the question of constitutionality was thus raised. Briefs were filed by both sides, and yesterday Judge Benton averruled the demurrer and held the law constitutional. The conviction and fine followed, as the college made no defense as to the facts. The case will go at once to the Court of Appeals of Kentucky, and should that court uphold the decision rendered and declare the law constitutional the case will be taken to the Supreme Court of the United States.

Suicide of an Actress.

After eating breakfast, brought to her bedside by her nine-year-old daughter, Mrs. Mary Williams yesterday morning in Philadelphia kissed the child goodby and sent her to school. As the little girl left the house the mother drew a revolver from beneath her pillow. Pressing this against her left side she pulled the trigger, and before members of the household could make their way to her bedroom she was a corpse. Mrs. Williams was an actress. Ten years ago Mary Wentz, a school girl of 16, conceived a passion for the stage that lured her from her parents' home. She "went on the road" with a traveling show, only to return after a few months. When she greeted her father and mother after this absence she informed them that she was a wife. Not long afterwards a daughter was born to her. The child was cared for by its grandparents while Mrs. Williams continued her theatrical career, visiting the old folks at intervals. On Monday morning Mrs. Williams reached home after a five weeks' absence. She greeted her mother and daughter affectionately, but complained of an injury to her foot which lately had prevented her from acting and caused her much suffering.

Swindling Ex-Slaves.

One of the most despicable frauds brought to the attention of the federal officers in a long time was the scheme worked upon many innocent colored people in the counties around Richmond by two pretended pension agents, now under arrest. They are Levi Sullivan and Charles Arian, who claim Rockingham county as their home. They were arrested in Buckingham, their last place of operation, Monday, and were arraigned before United States Commissioner Brady, in Richmond yesterday, for impersonating United States pension agents. They have been driving through the country since last November, telling old negroes who are ex slaves that a law had been passed allowing them a pension of $10 a month, and that all they had to do was to fill up the blanks which were furnished and pay a fee of $2. Their victims are counted by the hundreds, and when arrested the men were armed, had a good deal of money and a large number of blanks. Thd men are now in Henrico jail. Sullivan tried to commit suicide in the jail yesterday by taking large quantities of opium. He swallowed five capsules containing the drug, and had 20 more hidden about him. The jail physician was called in, and, after drastic treatment, Sullivan was declared out of danger.

Hanna Elias May Keep Her Money.

Hannah Elias, whose sensational arrest, charged with extortion, on complaint of the aged millionaire, John R. Platt, and her discharge, which was followed by a civil suit by Platt to recover $685,000, won the suit in New York yesterday. Justice O'Gorman handed down a decision in the afternoon in which he dismissed the suit, declaring that there was no evidence to support the allegations of the aged plaintiff.

Platt alleged that the Ellis woman, who is a negro, had obtained the money by coercion and other improper means. In his decision Justice O'Gorman said:

"There has been no evidence to substantiate the allegation that Platt was deprived of the money by threat of bodily harm or extortion. Nor is there any evidence to show that he was of unsound mind. On the contrary, there is evidence to show that he parted with the money willingly, freely and voluntarily. Even had there been no other testimony to this effect, Platt's own testimony would have established the fact. The suit is dismissed."

The Elias woman first came into prominence after the murder of Andrew H. Green, one of the best known citizens of New York. The negro who shot Mr. Green to death mistook him for Platt, whom he resembled only in appearance. Mrs. Elias lived then in a magnificent mansion at 236 Central Park west, maintained a corps of servants and had everything that money could obtain for her comfort.

Following the disclosures which came after Mr. Green's murder and her connection with Platt, she was charged with blackmail by the old millionaire. She was arrested, but the evidence against her was so weak that the charge was dismissed. Platt himself was unable on the witness-stand to substantiate his own charges.

It was not denied by the woman that she had obtaineed a large sums of money from Platt, but she contended that these had been given to her freely and voluntarily. Platt next brought suit, alleging that these sums aggregating more than half a million dollars, had been obtained by threats, coercion and extortion.

The Elias woman is restored to possession of the wealth obtained from Platt less $10,000 she paid to ex-Governor Black to defend the suit.

Gen. Miles and Mrs. Davis.

Gen. Nelson A. Miles, inspector general of the Massachusetts militia, said in Boston yesterday that he did not intend to make any response to the letter which Mrs. Jefferson Davis recently made public, in which she charged General Miles with perpetrating cruelties as custodian of her husband at the close of the civil war. General Miles said:

"The letter is so offensive in its character as not to call for any reply."

With reference to Mrs. Davis's demand that he produce a photographic copy of a letter which General Miles declared he had received from Mrs. Davis thanking him for his care of Mr. Davis as his prisoner, General Miles said he thought it entirely probable that he would make public such reproduction.

A Touching Story

is the saving from death of the baby girl of Geo. A. Eyler, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious Throat Trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr King's New Discovery for Consumption, Coughs and Colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At E. S. A Comparison of Muslin Underclothes With Others.

Put side by side they tell the story; the extra care and watchfulness exercised by this store shows in every garment. Night Gowns are asmost half a yard wider at the hips than others selling elsewhere at the same price. Chemises instead of being shapeless things looking like a petticoat with a top cut out in V shape are shaped to fit. Corset Covers are cut right to go over straight front corsets, and under tight-fitting bodies. When it comes to the laces and embroideries and materials from which the underclothes are made, you would in most cases choose ours with your eyes shut. You won't find a piece of muslin among them filled up with clay to make it heavy, nor anything pretending to be nainsook which is as coarse as a salt bag. Yet all of these improvements don't make our prices higher than in Washington.

Night Gowns, 39c to $2.50. Drawers, 25c to $1.50. Petticoats, 49c to $2.50. Chemises, 25c to $1.00.

Alexandria Gazette AND VIRGINIA ADVERTISER

WEDNESDAY EVENING, FEB. 22, 1905

THE ANNIVERSARY of the birth of George Washington did not seem to appeal as much to Alexandrians this year as it has on several occasions recently, and while two or three organizations will honor the occasion by giving banquets, the general trend of business will not be materially interfered with. No attempt was made to have a parade, without which the day is Hamlet minus Hamlet. The George Washington Birthday Association gave a banquet this afternoon which was an interesting feature, and speeches by Governor Montague, Lieutenant-Governor Willard and several officials and representative citizens of Alexandria rendered the occasion exceedingly interesting. Alexandria-Washington Lodge of Masons will give their annual banquet tonight, and the Friendship Veteran Fire Association will celebrate Washington's birthday in a similar manner. Fitzgerald Council, K. of C., will also give a banquet. The present generation, apart from those in a few places in the southern country, pay but little attention to the memory of George Washington. The Congress of the United States was in session today and throughout the capital city—named for the Father of the Country—but little interest was manifested in reminiscences of the first President of the republic. The twentieth century is witnessing laudations of many whose claims to niches in the temple of fame are dubious, while monuments are being unveiled to some whose missions in life have brought forth no permanent fruits. Birthdays of numbers whose careers were meteor-like and of reputations of mushroom origin are celebrated, while that of Washington comes and goes and produces less interest in some quarters than ground-hog day.

IT SEEMS that the location of the outlet of the Washington sewer near what is known as the Magazine wharf, a short distance north of this city, was authorized by an act of Congress, and that the Commissioners of the District of Columbia have no power to change it. Objection has been urged against placing it so near the Magazine wharf, the commandant giving several reasons why it should be removed to another point, but each change suggested brings it nearer Alexandria. The outlet would be uncomfortably near the city even at the point fixed upon, as evidences of its existence would often be noticeable not only in the stream but in the docks and probably on the shores; but those who do not want the filth of the capital city dumped near the Magazine wharf suggest that the outlet be placed near Shepherd's, while others think Oxon run is the proper place for the sewage of Washington to enter the Potomac. Alexandria has for years been annoyed by the garbage of Washington. Scows loaded with such refuse have often been anchored near this city in mid-summer, the effluvium from which was intolerable. People living in the western part of the city are often annoyed by garbage trains as they pass through the city, and the outlet of the Washington sewer seems destined to augment existing conditions.

IT IS SAID in Washington that with the beginning of the new administration after March 4 there will be a new deal in the government service A general shaking up in the departments is anticipated and a very decided step forward will be taken in the direction of minimizing the influence of federal office-holders in politics. It is hoped that the shake up may take place and that good results will follow.

THE OLD FARCE of reading General Washington's Farewell Address was repeated in the United States Senate today, but even the few who gave the reading a respectful hearing were no more influenced by the good advice contained therein than if the paper had been an ordinary public document. Indeed with the average modern Senator, General Washington and his advice are back numbers.

CRIMINAL proceedings against the leading members of the beef trust, started in Chicago yesterday following soon after the Supreme Court upheld the validity of the government's injunction against the trust will, it is hoped, have the effect of breaking up that trust, whose members are afraid of jails but not of fines.

THE UNNECESSARY and expensive work of clearing the Washington channel of ice was commenced today. There was not the slightest chance of a flood or damage of any kind, but those in the ring had a chance of getting some of the people's money, and they got it.

IT COMES with poor grace from Washington to be complaining of the pollution of the Potomac above that city when it is now making plans to dump its entire sewage in the river just above Alexandria.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., Feb. 22.

In a private car attached to a regular express train, President Roosevelt and a party left here at 7:40 o'clock this morning for Philadephia, where the President will address the students of the University of Pennsylvania. The regents of the university will confer on him the degree of Doctor of Laws. The same degree will be conferred upon the Emperor of Germany, the latter's Ambassador, Baron von Sternburg, accompanying the President this morning to act for His Majesty in receiving the honor. Others in the party were the Baroness von Sternburg, Postmaster-General R. J. Wynne, Senator Philander C. Knox, of Pennsylvania, Secretary Loeb and M. A. Latta.

The House committee on ways and means by a vote of 9 to 1 today authorized a favorable bill report on the bill reducing the tariff duties on tobacco and sugar from the Philippines to 25 per cent. of the Dingley rates. The democrats of the committee offered an amendment providing for absolute free trade which was voted down. They, however, reserved the right to obtain a vote in the House on the free-trade proposition. The bill was amended in only one important particular, providing, as it did in the Porto Rican act, for the imposition of internal revenue taxes on cigars imported from the Philippines.

The United States may play a leading part in the peace negotiations between Russia and Japan which are now said to be fairly on foot. The general impression here is that it is due primarily to tentative suggestions in the direction of peace made by Secretary Hay, under direction of the President, that the outlook is so promising as it is at the present time. Both Russia and Japan have been given to understand, in a purely informal way, that the United States is ready at any time when requested by the belligerents to extend its good offices. Neutral powers have been quietly sounded from Washington, and it is understood that there would be less objection to the United States officiating in this capacity than to any other country. State Department officials maintain a discreet silence over today's peace reports from St. Petersburg.

Congressmen Rixey and Swanson said today that it would be impossible for them to visit Alexandria today and take part in the banquets there as important measures of interest to their constituents in particular and the Stat of Virginia in general are now pending in the House and they wanted to be present if these matters came up. They both regretted that they would be unable to be present. Congressman Gardiner, of Massachusetts, expects to attend the Masonic banquet in that city tonight and respond to the toast "Beverley Lodge, of Massachusetts." Senator Daniel has sent his regrets and will not be able to go to Alexandria. Senator Martin said he could not attend the afternoon banquet in Alexandria as he had important business to look after in the Senate, but that he would come over at night for the Masonic banquet and would bring Senator Fairbanks with him.

Though Speaker Cannon is opposed to the $3,000,000 Jamestown Exposition appropriation bill, a plan is on foot to get the measure before the House and accept such appropriation as can be gotten through this session and wait till the next Congress for another appropriation. Congressman Maynard, of the Norfolk, Virginia district, who has the measure in charge, says he will continue his efforts in behalf of the bill till the Fourth of March if necessary, but says he believes confidently that he will succeed in passing his bill in the next few days.

A cablegram from Maj. Gen. Corbin, commanding in the Philippines, says that Maj. Frank Del. Carrington, of the First infantry, was sentenced to 40 years imprisonment instead of 60 years, as reported yesterday, on charges of embezzlement. He has appealed.

The Santo Domingo treaty was under consideration for a short time this morning by the Senate committee on foreign relations. Senator Morgan has drawn up a strong protest against executive interference with the Senate in its exercise of its constitutional powers in connection with treaty making. This he has had printed and it was laid before the committee this morning. The committee adjourned subject to the call of the chairman. Chairman Cullom has abandoned hope of securing ratification of this treaty at this session, but expects to ratify it at the special executive session of the Senate following the fourth of March.

Fifty-Eighth Congress.

SENATE.

When the Senate met today Senator Perkins, of California, read Washington's Farewell Address. Comparitively few Senators was in their seats.

When the bill providing for the government of the Panama canal zone was taken up, Mr. Morgan opposed that provision authorizing the President to deposit one and a half million dollars in some bank in the United States having a fiscal agent the Isthmus.

Mr. Gorman, (Md.) defended the provision. He took occasion to announce that he was opposed to governmental control of railroads but he felt that the ownership of the Panama railroad was a necessity in aid of the construction of that great waterway.

Before final action the hour arrived for the Swayne impeachment trial.

John Redmond's amendment to the address in reply to the speech from the throne was defeated in the House of Commons last night by a vote of 286 to 236, after an exhaustive debate occupying two days, and affording an opportunity to representatives of the several parties and factions to express their views on the Irish situation. The amendment declared, in effect, that "the present system of government (of Ireland) is opposed to the will of the Irish people."

RUSSIAN AFFAIRS.

The railroad and telegraph strike situation is reported to be growing worse in the southwest of Russia, and private advices are said to show the existence of a reign of terror in Tiflis and the Caucasus generally. Many murders by Tartars and Armenians are reported.

The situation in Poland along the Austrian border is also causing great uneasiness.

Telegrams from Baku report that the disturbances there are increasing, that fighting has occurred in many parts of the town, that shops have been pillaged and houses burned, and that the inhabitants are panic stricken. Serious disturbances are also reported at Balakhany and troops have been summoned thither.

Disturbances are reported in neighborhood schools. The police have arrested many pupils.

A dispatch from St. Petersburg confirming advices of February 17 and February 18 from St. Petersburg to the effect that peace was under consideration adds:

"The question of peace has not only been formally discussed, but the conditions on which Russia is prepared to make peace have practically been agreed upon. These are as follows:

"Korea to be placed under Japanese suzerainty.

"Port Arthur and the Liaotung peninsula to be ceded to Japan.

"Vladivostok to be declared a neutral port with an open door.

"The Eastern Chinese Railroad to be placed under neutral international administration.

"Manchuria as far north as Harbin to be restored as an integral part of the Chinese Empire.

"The difficulty lies in settling the question of indemnity, upon which it is known that Japan insists, but it is thought that this difficulty is not insuperable.

"The most trustworthy opinion at St. Petersburg is that in view of the internal situation and the enormous difficulty of carrying on the war, peace on the terms outlined will be concluded within a comparatively short time if the indemnity question can be arranged, but it is quite possible that Russia will risk another battle before a decision is reached."

Count Cassini, the Russian Ambassador n Washington, when shown the dispatch setting forth terms of peace said to be now under discussion said: "That such terms could be under consideration, or even discussed, by a government which has 400,000 men in the field, is too unreasonable for anyone to believe. My latest information from St. Petersburg is that there has been no change whatever in the general policy of the government earnestly to prosecute the war."

CONGRESSIONAL.

The Senate yesterday passed the Military Academy appropriation bill and began consideration of the Indian appro- Early in the day the Senate took up the isthmian canal bill, and agreed to meet an hour earlier today in order to advance the bill. Ex-Senator Higgins finished his prelimnary statement in opening the defense for Judge Swayne, and one witness for Judge Swayne was examined.

The House yesterday passed the Philippine tariff bill practically as it came from committee and with but little discussion. There was no especial opposition to it, although amendments coming from the democratic side designed to put certain products on the free list, met with defeat. An effort to prohibit the importation of opium into the islands except for medicinal purposes also failed, although Mr. Payne, of New York, explained that the Philippine Commission was dealing with the subject in its own way. Immediately after the Philippine tariff bill was disposed of, the House took up the river and harbor appropriation bill, but it was soon laid aside, and several measures were passed, the most important of which was the authorization given the Secretary of War to return to the several States Union and Confederate battle flags.

Physicians are much interested by the recent birth in Richmond of twins very similar to the Siamese pair, so famous years ago. Their heads, arms, limbs and bodies were separate, but there was a close bond between their bodies. The pair lived but a short time. Their bodies were turned over to the University College of Medicine there, and will there be preserved.

More Scandal.

The prospect of further spicy testimony in the suit for absolute divorce brought by Mrs. Daniel M. Brady against her husband, Daniel M. Brady, a railway supply manufacturer, brought a great crowd to Justice Leaventritt's court in New York yesterday. Mrs. Brady named Miss Gertrude MacKenzie, a comely and shapely comic opera actress, as corespondent. It developed yesterday that Mrs. Brady's brother had hired detectives to obtain evidence. These detectives testified that they had trailed Brady to several western cities and to Elgin, Ills., where Miss MacKenzie was appearing in the leading part in "Royal Chief." There one or the sleuths swore that he peeped over the transom of his room and saw Brady enter Miss MacKenzie's room. After waiting for several minutes for Bardy to appear, the detective and Samuel Webb the colored coachman of the Bradys knocked at the door of Miss MacKenzie's room. She answered the knock and the detective testified that Miss MacKenzie had removed her waist and skirt and that her dark locks were hanging down her back. The detective said that Brady's hair was rumpled. Brady asked him what was wanted, and he replied nothing and departed. The coachman corroborated the detectives testimony. Mrs. Brady is the grand-daughter of the late Isac M. Singer, the founder of the sewing machine works at Elizabethport, N. J.

Unveiled Today.

A bronze bust of Washington, a replica of the original in marble by David D'Angers, which was destroyed in a fire in the quarters of the library of Congress in 1851, was put in place in the rotunda of the Capitol yesterday and was unveiled today at 11 o'clock. The replica, like the original, is the gift of the citizens of France. It was presented by the French Ambassador, J. J. Jusserand, in exercises held after the unveiling, in the President's room in the Senate wing of the Capitol. The pedestal on which the bust is mounted contains a receptacle into which the French Ambassador placed papers giving a history of the bust, after which the receptacle was sealed up. The bust arrived at the Capitol about a year ago, but has just been assigned a place.

Immediately after the removal of the veil, which was done in the rotunda without special ceremony, in the presence of the French Ambassador, President pro tem. Frye, of the Senate Speaker Cannon of the House and other distinguished guests, the party repaired to the President's room in the rear of the Senate chamber where Mr. Jusserand, on behalf of his fellow-countrymen, made the presentation in a formal speech.

Captain Wise's Speech.

For more more than two hours last night Captain John S. Wise, of New York, presented to a good-sized audience at the Academy of Music in Richmond his personal reminiscences of Presidents of the United States. Of Mr. Roosevelt he spoke at length, particularly as to his attitude toward the South and gave his hearers to understand that he believed the head of the nation was endeavoring to be perfectly fair. Of the much-discussed Roosevelt-Washington dinner, Capt. Wise said that it was an official affair. As a Virginian, he said, he did not like it. "But while the South was abusing the President," he added, "it welcomed Mr. Ogden, who came down at the head of the educational movement, and Booker Washington is often his guest for weeks at a time."

There is one rational way to treat nasal catarrh: the medicine is applied direct to the affected membrane. The remedy is Ely's Cream Balm. It restores the inflammed tissue to a healthy state without drying all the life out of them and it gives back the lost senses of taste and smell. The sufferer who is tried of vain experiments should use Cream Balm. Druggists sell it for 50 cts. Ely Brothers, 56 Warren street, New York, will mail it.

Today's Telegraphic News

Prospects for Peace.

London, Feb. 22.—The concensus of opinion in diplomatic and unofficial circles in London is that the conclusion of peace in the far East should hardly be considered imminent. While considerable credence is given the dispatch from St. Petersburg giving the probable terms which Russia is willing to offer to bring about this desired result, nevertheless it is taken as being certain that Japan would not be likely to accept these terms. Japan is determined that whatever terms are offered they shall be such as to ensure lasting peace and prevent Russia from again disturbing Manchuria. The terms mentioned would not ensure such permanence of quiet.

Baron Hayashi, the Japanese Minister, speaking of the peace talk today said: "So far as Japan can see the actions of Russia all tended in the direction of continuing the war. There is no real indication that Russia is desirous for peace. I have no information as to the views of the Japanese government on the suggested terms of peace. The rumors are probably the outcome of a general feeling for peace. As regards details the peace makers can forego anything or demand anything."

Berlin, Feb. 22.—The Colonial Gazette in an editorial apparently inspired by the German Foreign Office, denies that Germany has offered to mediate between Japan and Russia. Neither of the belligerents, says the paper, are yet willing to accept mediation. The Gazette adds that the internal disturbances in Russia will retard rather than aid the conclusion of pesce.

Queen Beset by Beggars.

Lisbon, Feb. 22.—Queen Amelia was, for a time, last evening, in danger of suffering harm at the hands of a number of beggars on the outskirts of the city. The queen, accompanied by Count De Figueiro, a lord in waiting, was horse back riding on the outskirts of Lisbon, when 100 meudicants, men and women, made threatening demands for alms. The count immediately galloped away to the nearest police station, leaving the queen a practical prisoner in the hands of the beggars. A strong force of police carbineers made an attack on the beggars capturing thirty-nine of them. Queen Amelia was not hurt. She faced the situation unmoved, and, it is stated, was greatly amused at the extreme haste with which the count made his exit, when danger threatened.

The President in Philadelphia.

Philadelphia, Feb. 22.—President Roosevelt's arrival here at 10:40 a. m. was the signal for a public ovation in the Broad street station. Entering the Academy the President proceeded to the green room, where he held an informal reception. President Roosevelt chose as the subject of his address: "Some maxims of Washington," and his speech was greatly applauded. Following the University of Pennsylvania exercises, the President was the guest at a strictly private luncheon of the First City Troop. He will leave for Washington at 3:20 p. m. via the Pennsylvania Railroad.

Fire in London.

London, Feb. 22.—What promised for a time to be a most serious conflagration occurred in Long Acre Square and St. Martin's Lane this morning. The locality is made up of coach and motor building works and saddlery establishments. The flames leaped from one to another of these establishments until eight buildings were destroyed. The firemen had a hard task and fought the flames for four hours before they had them under control. The damage amounted to $375,000.

Doctors were sent to the wreck with the relief train, which has not yet returned. A later dispatch says six persons were injured. That no one was killed is little short of miraculus.

Dr. Charles McBurney, of New York, will be assisted by Dr. Billings, Dr. Arthur Dean Bevan and Dr. Ludwig Hektoen. President Harper spent Tuesday hard at work. The first copies of three books which have been written recently by him were issued from the University Press, and sent to him for inspection. He spent the greater part of the day reading them. For the last few days the feeling of apprehension with which the coming operation has been regarded by President Harper and his friends, has given way to a more hopeful view. The patient himself, says his attendants, is more cheerful.

The Students' Christian Union of the University has issued a call for a special prayer meeting in Cobb Chapel, today, at 10:30 o'clock. Dr. C. R. Henderson will be in charge of the services and prayers and addresses will be delivered by faculty members and students. The Murder of Engineer Hart.

Providence, R. I., Feb. 22.—The murder of John A. Hart on the steamer Larchmont Saturday night while on the trip to this city from New York has been fixed on a man who was in the stateroom a dozen times after he committed the murder, and as late as 15 minutes before the boat reached her dock here. John K. Breese, a passenger on the trip, saw the man closely and gives a very minute description of him. He believes the man was a Jew and declares that he could positively identify him if he ever saw him again. Detective John T. Haran returned from Cambridge, Mass., last night where he learned the above facts, for the first time getting a definite clue to the murderer.

John A. Hart occupied stateroom No. 12. John Breese, who has furnished important information on the case, had room No. 11. The two rooms led off a small passage way, the doors facing each other. Bresse saw the supposed murderer pass in and out of Hart's room several times, but thought it not at all strange. Breese will arrive in this city today to assist the authorities in locating Hart's murderer.

Infant Thrown into a Furnace.

Rochester, N. Y., Feb. 22.—G. W. McCaffrey, an engineer in the shoe factory of Menihan and Gilchrist, last night told the police the story of a murder committed in that factory. The police are investigating. McCaffery says he was sitting in the boiler room shortly after 2 o'clock Tuesday morning, of last week, when a man entered and opened the door of the furnace. Remonstrating with him, McCaffery faced two revolvers and a threat of blowing his head off. Another man, and a heavily veiled woman entered and one of the men took a bundle from the woman and threw it into the furnace. The woman uttered an expression of anguish, and McCaffery heard the wails of an infant. The men left, promising to kill him if he ever uttered a word about what he had seen. The men wore false mustaches, one mustache falling off while they were in the room. Through fear McCaffery did not tell the police until last night. He refuses to return to work in the factory, and is almost overcome. He says he cannot identify the men on account of the disguises, while the woman was too heavily veiled for him to recognize her.

He was seen to pull a ribbon from one schoolgirl's hair, and she ran away, pouting and frightened. Later he accosted another schoolgirl and offered her his umbrella. On account of the high-standing of the young man's family the police justice agreed to withhold his name from publication, with the agreement that he would leave the city at once.

For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. The River.

The ice in the river has not apparently decreased in bulk, although it shows signs of weakening, and steamers pass up and down the path in the channel with less difficulty than for several weeks.

The steamer Washington arrived up from Norfolk only an hour late this morning. She reported conditions in the river as practically unchanged.

The transfer service of the Baltimore and Ohio Railroad between this city and Shepherd's is still suspended. A day or two ago the tugboat Major Brewerton broke two blades of her propeller while battling with the ice. She went to the Washington navy yard yesterday for the purpose of being hauled out, but the ways could not be worked owing to the heavy ice.

The attack on the ice near the Long Bridge commenced this morning. The work is under the direction of Harbormaster Sutton, of Washington. The ice is very hard, and there is believed to be very little danger just now of it giving away suddenly and jamming at the bridge. As the warm weather is softening the ice, and it melts much more rapidly in salt water than in fresh, the breaking away of the ice on the river below Indian Head is looked for at any time, and when it is adrift with the tides down there the tugs will widen the channel made by the navy tugs and Norfolk line steamers until the drift ice can flow off with the winds and the tides. Commodore Sutton will start the fleet breaking the ice about the bridges, and when it is thoroughly broken up there they will go down the river, breaking a wide channel to Glymont and Indian Head. It is said that it will require about ten days to complete the work and get the river in this vicinity thoroughly broken. One steamer and fourteen tugs, all armed with ice-breaking plows, were demolishing the ice today. The fleet includes the steamer Estelle Randall and the tugs Wm. H. Yerkes, jr., Camilla, James O. Carter, Edith G. Winship, Wm. H. Mohler, Minerva, Walter G. Meade, D. M. Key and J. T. Selecman of Washington, and the Juno, Rosalie, George W. Pride and the Bartholdi of Alexandria. The District police tug Vigilant is also to be included in the list.

The lighthouse steamer Maple left Baltimore yesterday to secure gas buoys in danger of the ice in the Potomac river and on the middle ground in the Chesapeake. Her master returned and reported that the ice gorge in the channels would not justify him trying to force a passage.

The tug Juno which broke her rudder in the ice at the shipyard yesterday evening had the damage repaired last night and this morning went to Washington to assist in breaking the ice in the Georgetown channel.

Captain Geoghegan, of the steamer Anne Arundel, now at Baltimore, received a letter from Rock Point, on the Potomac river, appealing to him to use his influence in having the State iceboat Annapolis come to the rescue of 75 oyster vessels frozen in at that point on the Maryland shore. The appeal states that if the ice breaks up in the Potomac it is certain to wreck many of the craft.

The Swedish bark Wanlock, which is in Hampton Roads awaiting to come to Alexandria with bone ash from Buenos Ayres, made such a quick trip that she beat her mail to the States. She left there on January 9 and reached Hampton Roads last Saturday.

Alexandrians Promoted.

The Havana (Cuba) Post of the 16th instant says:

"Mr. J. Ellis Norris, of this city, has been appointed general manager for the West Indies of R. G. Dun's Commercial Agency, to succeed his uncle, Mr. W. A. Merchant, who recently resigned to accept the vice presidency of the National Bank of Cuba. Mr. Norris is of an old Virginian family, being a native of Alexandria, Va., where his father is a well known citizen. He is a newspaper man by profession, having taken a thorough course in journalism. Before entering the employ of R. G. Dun & Co., he was at times employed on newspapers in Alexandria, Va. He became associated with R. G. Dun & Co at Charleston, S. C., and was transferred from there to Havana in 1900 as assistant to Mr. Merchant. How much his work has been appreciated in this position is shown by the fact that he has been selected to succeed Mr. Merchant on March 1. In his jurisdiction will be included Porto Rico, Santo Domingo, Hayti, Jamaica, Trinidad, St. Thomas, St. Croix, Curacao, Antigua, Dominica, Martinique, Guadalupe, St. Lucia, Barbados and all the other smaller islands of this section. Mr. Norris enjoys the distinction of being the youngest manager to hold one of the most important posts in the agency, and is consequently one of the highest salaried."

Alexandria Fertilizer Works.

The Alexandria Fertilizer and Chemical Works have been compelled to further add to their plant in this city by increasing the capacity of the sulphuric acid chambers from 9,000 to 14,000 tons per year. The company has recently enlarged their works in this city, and is equipping them with modern appliances of all sorts, in which electricity will be a prominent feature. Other additions are contemplated, especially in wharf facilities. The Alexandria Fertilizer Works form an important feature in the industries of this city. The gentlemen at their head are energetic, enterprising and public sprited, and they have in a short time added materially to Alexandria's commercial interests.

Social.

The social given last night by the Westminster League of the Second Presbyterian Church was greatly enjoyed by all who attended. There was a large gathering and the interesting programme which had been prepared for the occasion was well rendered.

The George Washington Birthday Association.

The dinner given at the Elks' Hall this evening at 3 o'clock by the George Washington Birthday Association was a notable event in Alexandria's history. Among those present were Governor Montague, Judge Nicol, Judge McCabe, State Senator Machen, Delegate J. R. Caton and Mayor Paff. The hall had been beautifully and artistically decorated with United States flags, while cut roses, carnations, palms and ferns lent a charm and fragrance to the scene. The company with one accord were well pleased with the perfect harmony with which the programme was carried out and congratulated the committee having the celebration in charge upon their unbounded success. The menu, arranged by Messrs. Rammel Brothers, was prepared in a tempting manner, and the large company did full justice to the spread. It was as follows:

Cherrystone oysters, Martini, consomme, chicken, baked shad with blue herbs, potatoes, butter sauce; roast turkey stuffed with oysters, cauliflower, green peas, Roman punch, sirloin roast larded, walnut sauce, asparagus, mashed potatoes, salted almonds, athenic fruit, Martha Washington and old Virginia pumpkin pie, charlotte russe, demitasse and cigars.

Railroad Thieves.

As a south bound Baltimore and Ohio freight train was leaving Washington about two o'clock this morning for this city thieves boarded one of the cars and proceeding to the roof tied a rope to the foot board. While the train was underway they lowered themselves over the side of the car, broke the seal, pushed the door back and entered. They rolled two barrels of whisky to the door and secured several other articles which they intended to throw off the car at some point north of Alexandria, when they were surprised by railroad detectives on the train who discharged their pistols at the thieves. The latter jumped from the cars and made their escape. It is believed that a bullet struck one of the fugitives.

An Omission.

In the Gazette's report of the proceedings of the quarterly conference of the M. E. Church South held last Monday night a resolution passed by a unanimous vote was inadvertently omitted. It was in the nature of appreciation of the labors of Mr. William H. May, who has for the past 25 or 30 years worked assiduously in efforts to obtain a claim from the government for damages to the church in this city by federal soldiers during the war. The church, it will be remembered, was at one time used as quarters for a cavalry company.

In Favor of Plaintiff.

In connection with the proceedings at law instituted by Austin Chapman against the Washington, Alexandria and Mt. Vernon Railway Company to recover damages in the sum of $10,000 for personal injuries alleged to have been sustained by reason of the negligent starting of a car of the defendant company while near Addison station, a jury in Circuit Court No. 2 in Washington has rendered a verdict in favor of the plaintiff for $1,500.

The Twenty-Second.

While there was no parade today in honor of Washington's birthday, some places of business were closed in the afternoon, as were also the public offices. It was, however, by no means a general holiday. Decorations were scarce. Two flags adorned the front of the Friendship engine house. Several organizations will celebrate the occasion by banquets tonight. A large number of persons visited Mount Vernon during the day.

President Snubs Senate.

President Roosevelt's luncheon on March 4 bids fair to be an issue with the Senate. It has been a cherished tradition of the Senate that, after taking the oath of office and delivering his inaugural address, the President has always been the guest of the Senate for luncheon—usually a hasty bite in the military committee room. President Roosevelt, however, has decided to give a formal luncheon at the White House, and as nearly 60 persons have been asked, it will be a matter of some ceremony and certainly consume a good deal of time.

It is now calculated that this function, besides ruffling the dignity of the already ruffled Senate, will delay the procession in passing the reviewing stand at least an hour and a half.

A good deal of speculation is going on about the grand march which is to open the inaugural ball. It was announced this afternoon that the President and Mrs. Roosevelt would follow the time-honored custom and circle the great ballroom at least once.

A Story of Senator Vest.

On a certain occasion Mr. Vest had returned to the senate after one of his brief absences, Senator Hoar of Massachusetts, four years his senior, met him in the lobby and chided him good naturedly for not attending strictly to business when vital measures were being debated. "You're a fine young man," said Mr. Hoar, "to absent yourself at such a time and leave us old fellows, Cockrell and me and the rest, to handle these matters."

"You'll never be as old as I," said Vest, "if you live fifty years longer."

"Bless you, I was born in 1826 and was preparing for college before you came into the world," said the Massachusetts man.

"If you were born in 1726 you wouldn't be as old as I," said the Missourian. "You and Cockrell will see years, but you will never see age. You haven't lived as lively as I have, and I am wishing sometimes that I hadn't," he said, with a weary smile.—Kansas City Star.

Life In Virginia In 1648.

In the old days in this country farming and manufacturing were carried on together to a very large extent. A letter written from Virginia in 1648 gives the following picture of life on the plantation of a certain Captain Matthews, a leading citizen of the colony: "He hath a fine house and all things answerable to it. He sows yearly store of hemp and flax and causes it to be spun. He keeps weavers and hath a tan house, causes leather to be dressed, hath eight shoemakers employed in their trade, hath forty negro servants and brings them up to trades in his house. He yearly sows abundance of wheat, barley, etc. The wheat he selleth at 4 shillings the bushel. He kills store of beeves and sells them to victual the ships when they come thither. He hath abundance of kine, a brave dairy, swine great store and poultry."

Snake Venom.

The action of snake venom on cold blooded animals has been tested by Dr. Noguchi in a long series of experiments. Three venoms were employed—viz, those of the cobra, water moccasin and rattlesnake. Snakes and frogs succumb easily to cobra venom, but are relatively insusceptible to the other venoms. Turtles are more susceptible to all venoms than the foregoing, and fish are still more so. The grasshopper and some crabs are almost insusceptible, while the lobster is only moderately resistant. Excepting the earthworm, all the worms showed a low degree of susceptibility. The venoms have little effect on the echinodermata; sea urchins succumbed, however, but starfish and sea cucumbers were not perceptibly affected.—London Nature.

Canada and the Canoe.

Abolish the canoe and Canada might have a war every five years and then lose fewer young men than the great number that must go down to death in ten years of summer holidays. It is pitiful the mothers who weep, the fathers who mourn and the homes that are darkened simply because young people will take chances that they have no business to take. Death may part the young man from his canoe. Good advice cannot. "Ephraim is joined to his idols," and the victims of the canoe habit will neither keep out of canoes nor be careful while they are in canoes.—Toronto Telegram.

Russian Woman Proverbs.

If Russian sayings and proverbs are a true index the position of women within the czar's domains is not to be envied. Here are some adages: "The head of a woman is as empty as the purse of a Tartar." "A woman without fear is bolder than a goat." "If you beat your wife in the morning don't forget to do it again in the afternoon." "Hit your wife with the handle of your ax; she is no pitcher to break at the first blow." "If you beat a fur it becomes warmer, and if you beat your wife she will be more true to you."

Perfect Confidence.

Where there used to be a feeling of uneasiness and worry in the household when a child showed symptoms of croup, there is now perfect confidence. This is owing to the uniform success of Chamberlain's Cough Remedy in the treatment of that disease. Mrs. M. I. Basford, of Poolesville, Md., in speaking of her experience in the use of that remedy says: "I have a world of confidence in Chamberlain's Cough Remedy for I have used it with perfect success. My child Garland is subject to severe attacks of croup and it always gives him prompt relief." For sale by Gibson & Timberman and W. F. Creighton & Co.

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach; liver and kidneys. Mary H. Walters, of 546 St. Clair Ave., Columbus, O., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters I obtained relief, and in a short time I was entirely cured." Guaranteed at E. S. Leadbeater & Sons' drug store; price 50c.

Give Your Stomach a Rest.

Your food must be properly digested and assimilated to be of any value to you. If your stomach is weak or diseased take Kodol Dyspepsia Cure. It digests what you eat and gives the stomach a rest, enabling it to recuperate, take on new life and grow strong again. Kodol cures sour stomach, gas, bloating, heart palpitation and all digestive disorders. Sold by all druggists.

Bad breath, belching of gas and sour risings are due to Indigestion. Kodol Dyspepsia Cure is a guaranteed cure. L. A. Soper of Little Rock, Ky., writes us: "We feel that Kodol Dyspepsia Cure deserves all the commendations that can be given it, as it saved the life of our little girl when she was three years old. She is now six and we have kept it for her constantly, but of course she only takes it now when any thing disagrees with her." Kodol is the best medicine in the world for Indigestion, Dyspepsia and all stomach troubles. A trial of this greatest of all digestants will convince any who suffers. Good for young or old. Sold by all druggists.
